EXPERIENCE

Executive Software Developer

Destek Infosolutions

📅 July 2023 – Ongoing

📍 Pune, India

- Developed WAAYU Admin and restaurant owners Angular web app UI, providing guidance to two interns
- Collaborating with Team Lead on ONDC for Waayu Onboarding, assisting with payloads, private key generation, encryption, decryption, and logs. Implemented dynamic Node.js API for decryption and signing, facilitating the transition from staging to pre-prod.
- Revamped LYCA productions website with responsiveness and api integrations.

Web Developer Internship

Destek Infosolutions

📅 Oct 2022 – April 2023

📍 Pune, India

- Developed responsive UI, integrated Firebase and social login/signup features for POPC modern comic web app.
- Developed mobile-responsive UI for Wayu Web Food Delivery App, ensuring seamless UX across devices, and also developed VIA-Exam's Angular frontend UI while integrating multiple APIs
- Gained valuable experience in Angular, API integration, and UI changes as an intern, while supporting team lead in mentoring two other interns.
- Experience Letter : [View](#)

PROJECTS

Butterfly (React Js, Firebase and Tailwind Css)

Personal

📅 May 2023 – Jun 2023

📍 Full Stack

- I have developed a ReactJS web application called Butterfly Social Space, which enables users to register and share high-quality audio clips, videos, and images. Firebase as the backend for all CRUD operations. The web app is fully responsive, has a modern UI, and uses TailwindCSS and DaisyUI for styling.

Inventory Management (React Js, Firebase and Tailwind

Freelance

📅 Sep 2023 – Oct 2023

📍 Full Stack

- Creation of schools and products. Schools can place orders, which admins can approve. The system includes a transparent email notification system for order status updates. Products can be selectively visible to schools and updated as needed with various filters and invoices.
- Source Link : [Github](#)
- Everything is documented in above link with demo

Project Manager (React Js, Firebase and Chakra UI

Personal

📅 Aug 2022 – Sep 2022 📍 Full Stack

- Project Manager is a WebApp where anyone can Upload and share their Projects and Show-case it. This App uses Firebase Signup, Login, Storage, Database, Hosting API for storing and fetching project data. Supports Search for projects. Uses various libraries such as : Chakra-UI, Framer-Motion and AOS.
